Texas DX Society

Texas QSO Party 2025 Results

Prepared by:

Chuck – NO5W

This report is dedicated to the memory of Keith Dutson, NM5G/SK, who shared the role of Texas QSO Party Coordinator with me for many years. Keith became a silent key in May of 2025.

Section 1: Introduction

This is the final report of the results in the 2025 Texas QSO Party. In reading the following score tables the entry categories are abbreviated with the following codes:

Category Code	Category Description
NTX SO CWO	Non-Texas (US/Canadian) Single Operator CW Only
NTX SO PHO	Non-Texas (US/Canadian) Single Operator Phone Only
NTX SO	Non-Texas (US/Canadian) Single Operator Mixed Mode
NTX SO QRP	Non-Texas (US/Canadian) Single Operator QRP
DX SO	DX (non-US/Canadian) Single Operator (Mixed Mode)
TX CWO SO	Texas CW Only Single Operator (split into LP and HP in 2019)
TX CWO SO LP	Texas CW Only Single Operator Low Power (introduced in 2019)
TX CWO SO HP	Texas CW Only Single Operator High Power (introduced in 2019)
TX PHO SO	Texas Phone Only Single Operator (split into LP and HP in 2019)
TX PHO SO LP	Texas Phone Only Single Operator Low Power (introduced in 2019)
TX PHO SO HP	Texas Phone Only Single Operator High Power (introduced in 2019)
TX DGO SO LP	Texas Digital Only Single Operator Low Power (introduced in 2025)
TX SO MIX	Texas Single Operator Mixed Mode (split into LP and HP in 2019)
TX SO MIX LP	Texas Single Operator Mixed Mode Low Power (introduced in 2019)
TX SO MIX HP	Texas Single Operator Mixed Mode High Power (introduced in 2019)
TX SO QRP	Texas Single Operator QRP
TXM SO CWO	Texas Mobile Single Operator CW Only
TXM SO PHO	Texas Mobile Single Operator Phone Only
TXM SO	Texas Mobile Single Operator Mixed Mode
TXM MO	Texas Mobile Multi-Operator
TX MO	Texas Multi-Operator (split into LP and HP in 2019)
TX MO LP	Texas Multi-Operator Low Power (introduced in 2019)
TX MO HP	Texas Multi-Operator High Power (introduced in 2019)

In the tables **Score*** is the score before applying any bonus whereas Final Score includes the total bonus which is the sum of the following two types of bonus points available in the TQP.

- **Mobile County Activation Bonus (CAB)** – Each county from which a mobile makes five or more contacts earns the mobile a bonus of 1000 points. This bonus is only available to mobile operators.
- **Mobile Tracking Bonus (MTB)** – For any station, fixed or mobile, a bonus of 500 points is awarded for each group of five different counties that the station has a QSO with a given mobile.

Section 2: US-Canada (Non-Texas) Individual Player Scores

Section 2.1: Non-Texas Single Op CW Only Category –

The following table shows some recent history (2019-25) of the top three participants in the competitive NTX SO CWO category. For historical details of the scoring during this period see the appendix (Historical Scores) which can be reviewed to get an idea of what it takes to finish in the top three in this category.

From the table it can be seen that over the seven-year period 2019-2025 the category has seen consistent scoring by N6MU, WB9CIF, W5TM, and K9CW. Thanks to each of these operators for their continued support of the Texas QSO Party.

Top Three Scoring Operators in NTX SO CWO in period 2019-2025							
Place	2019	2020	2021	2022	2023	2024	2025
1	N6MU	WB9CIF	WB9CIF	NA1NA	W5TM	K9CW	K1RO
2	W5TM	N6MU	N6MU	WB9CIF	K9CW	N4OX	W9SN
3	K4AMC	K9CW	W5TM	K9CW	KN7Y	KV8Q	K9CW

The following table lists all the scores for the 127 NTX SO CWO logs submitted in the 2025 running of the TQP. Thanks to all who submitted a log.

2025 All Scores in NTX SO CWO							
Call	Category	CWQs	QSOPts	Mults	Score*	Bonus	Final Score
K1RO	NTX SO CWO	296	888	123	109224	19500	128724

Section 2.3: Non-Texas Single Op Mixed Mode Category –

The following table shows some recent history (2019-24) of the top three scoring logs in the NTX SO MIX category with WA6KHK consistently claiming a spot in the top three followed by KA6BIM and N8II. It is notable that W8PI moved from third place up to first this year.

Top Three Scoring Operators in NTX SO MIX in period 2019-2025							
Place	2019	2020	2021	2022	2023	2024	2025
1	WA6KHK	K1RO	KI6RRN	KA6BIM	KA6BIM	WA6KHK	W8PI
2	W6OAT	N8II	WA6KHK	WO4O	WA6KHK	KA6BIM	N8II
3	N8II	WA6KHK	N8II	WA6KHK	N8II	W8PI	KA6BIM

The following table lists scores for all 82 logs received in the NTX SO MIX category. Thanks to all contestants who submitted a log in this category.

2025 All Scores in NTX SO									
Call	Category	CWQs	PHQs	DGQs	QSOPts	Mults	Score*	Bonus	Final Score
W8PI	NTX SO MIX	256	72	0	912	140	127680	18500	146180

Section 4.6: Texas Single Op Mixed-Mode High-Power Category –

The following table shows some recent history (2019-25) of the top three scoring logs in the TX SO MIX HP category. N5JJ (14pts) is the clear leader in this category having placed in the top three every year of the period. Congratulations to K5WA for setting a record in this category.

Top Three Scoring Operators in TX SO MIX HP in period 2019-2025							
Place	2019	2020	2021	2022	2023	2024	2025

1	WA2VYA	W5KFT[1]	WA2VYA	N5JJ	N5JJ	N5JJ	K5WA
2	K5OT	N5JJ	N5JJ	WA2VYA	AC5V	W5KU	N5JJ
3	N5JJ	W5GCX	N5TJ	W5NAC	K5RX	W5MF	NF5T

Here is a list of the scores of all the logs submitted in the TX SO MIX HP category in 2025.

2025 All Scores in TX SO MIX HP									
Call	Category	CWQs	PHQs	DGQs	QSOPts	Mults	Score*	Bonus	Final Score
K5WA	TX SO MIX HP	459	1018	0	3413	162	552906	1000	553906

Section 4.7: Texas Single Op QRP Category –

The following table shows some recent history (2019-25) of the top three scoring logs in the TX SO QRP category. WB5BKL is the perennial winner in this category, taking first place every year during the 2019-25 period. A note of thanks should also go to W5ESE who keeps things interesting by mounting a POTA-type operation to rare West Texas counties.

Top Three Scoring Operators in TX SO QRP in period 2019-2025							
Place	2019	2020	2021	2022	2023	2024	2025

Section 4.8: Texas Mobile Single Op CW Only Category –

The following table shows some recent history (2019-25) of the top three scoring logs in the TXM SO CWO category. AD4EB is the perennial winner in this category every year he has travelled over from Tennessee to play in the TQP. Do the numbers and note that 3000 QSOs in 18 hours (2023) requires an average of 166 QSOs per hour. That's impressive and creates a lot of CW excitement in the party which we appreciate. A big thank you goes out to Jim and Melody for their outstanding support of the Texas QSO Party.

Top Three Scoring Operators in TXM SO CWO in period 2019-2025							
Place	2019	2020	2021	2022	2023	2024	2025
1	AD4EB	AD4EB	AD4EB	K5CM	AD4EB	AD4EB	AD4EB
2	KS5A	N5NA	N5NA	K5PS	K5PS	WW5X	N4CD
3	W3DYA	KS5A	WW5X	N5NA	K5TIA	KE5CW	N8AI

Here is a list of the scores of all the logs submitted in the TXM SO CWO category in 2025.

2025 All Scores in TXM SO CWO

Section 4.9: Texas Mobile Single Op Phone Only Category –

The following table shows some recent history (2019-25) of the top three scoring logs in the TXM SO PHO category. The seven-year period has seen a back-and-forth tug of war between Victor-WB0TEV and Marvin-KI5MM. Until this year, both of them had three first-place finishes and two second-place but in 2025 Victor pulled ahead with another first-place finish. So, stay tuned for TQP 2026 to see if KI5MM can reclaim the top spot on the TXM SO PHO podium.

Top Three Scoring Operators in TXM SO PHO in period 2019-2025							
Place	2019	2020	2021	2022	2023	2024	2025

Section 4.11: Texas Mobile Multi-Op Category –

The following table shows some recent history (2019-25) of the top scoring logs in the Texas Mobile Multi-Op category. In this rather sparsely populated category, we have competition for first place between K5DX and W5CT with each of them having won the category three times. It should be noted that, in the TQP, there is no distinction between Multi Operator Single Transmitter and Multi Op Multi Transmitter so the easiest way to enter the TXM MO category is Multi-Operator Single Transmitter. This year we were fortunate to have Mark-N5OT and Steve-KG5VK put together a nice operation in this category.

Top Three Scoring Operators in TXM SO MIX in period 2019-2024							
Place	2019	2020	2021	2022	2023	2024	2025

Section 5: Texas Club Aggregate Results

Section 5.1: Summary

Each Texas operator submitting a log can specify a Texas club to receive their score and for each club these scores are summed up to create the club's aggregate score. The winner of the club competition receives a traveling trophy as well as a permanent plaque. In 2025 there were twenty-eight clubs submitting as many as 14 and as few as 1 log. As you can see from the following tables the Central Texas DX and Contest Club(CTDXCC) has had a lock on the club aggregate competition but in 2024 the Texas DX Society brought a new winner on the scene after moving up through the ranks in previous years. Then in 2025 the CTDXCC recaptured the top spot. Here is a summary of the top three clubs for the past seven years 2019-25 followed by the detailed listing used to compile the 2025 results.

2019 Top Three Clubs		
Club	Entries	Total Score

Section 6: Some Statistics from the Logs

Section 6.1: Number of Logs– In 2025 a total of 400 logs were submitted, 278 from outside Texas, and 122 from inside the state. In terms of logs submitted, the most popular category for those outside of Texas was the Single Operator CW Only category and for those inside of Texas the most popular category was the Single Operator Phone Only Low Power category.

Category	Category Full Name	Log Count
DX SO	DX SINGLE OPERATOR	7
NTX SO MIX	NON-TEXAS SINGLE OPERATOR MIXED MODE	82
NTX SO CWO	NON-TEXAS SINGLE OPERATOR CW ONLY	127
NTX SO PHO	NON-TEXAS SINGLE OPERATOR PHONE ONLY	55

[Section 6.2: Band and Mode Statistics](#) - The 20m band continues to be the primary band for the party but with a healthy amount of activity on 40 and 15. Here's how the breakdown went in 2025 versus 2019-24.

	Percent of QSOs in Band						
Band	2025	2024	2023	2022	2021	2020	2019
160	0	0	n/a	0+	0	0	0+
80	.9	.6	n/a	2	3	3	4
40	20.0	23	n/a	33	42	35	39
20	53.5	50	n/a	56	54	62	55
15	21.2	22	n/a	8	1	0+	1
10	4.3	4	n/a	.6	0+	0+	0+
6	0	0	n/a	0	0+	0+	0+
2	0	.1	n/a	0	0+	0+	0+

Regarding modes of operation, CW continues to be the most popular mode, perhaps due to the large number of QSOs made by mobiles and the fact that CW is the easier mode from a mobile. The breakdown in 2025 was

QSO Mode	QSO Count	Percent of QSOs
CW	33944	62
SSB	20202	37
DG	661	1

Section 6.3: QSO Destination: Since the TQP allows Texas stations to include counties in the multiplier count there is a potential danger of Texas stations focusing on making QSOs with other Texas stations which will tend to make the party insular and of limited interest to those outside of Texas. For the long-term health of the party, it is important to monitor the distribution of QSOs by destination. Here's how the 2025 TQP stacked up on that statistic. You can see that the 2025 Texas QSO Party was definitely outward facing with only 14% of the QSOs being internal to Texas.

QSO Destination	Number of QSOs	Percent of QSOs
Texas-to-Texas	7650	14
Texas-to-US/VE	43984	80
Texas-to-DX	3178	6

Section 6.3.1: Counties on the Air: There were 171 of the 254 Texas counties on the air in 2025. Here's a [link to a map](#) showing those counties highlighted in red. Here's a [link to a map](#) showing in black counties that were silent in 2025. Mobiles take a look at these silent counties and see if you can activate one or more in 2026. Here is a map to the [twenty most-active counties](#), it's not surprising that several of these are in major metro areas, but there are some in the boonies.

Section 6.4: Butt-in-Chair Stations – These are the stations that were active in every hour of the party by virtue of the fact that they made at least one contact in each hour, but of course in many cases, it was much more than one QSO. We certainly appreciate these operators, and their chairs, for the “support” they show for the TQP. Special thanks to the following participants.

- **Texas Stations:** AD4EB, N5OT, KK5TY, K5WA, WB0TEV, KI5MM, KN6VTC, N5IT, N5JJ, W5NC, W5ACQ, NF5E, W5LO, NU5DE, W5LXS, AE5GT, K5BAY, WB5BKL, KA5RBZ
- **Non-Texas Stations:** OM2VL, KA6BIM, DL3DXX, K1RO, W9SN, K9CW, K3TW, WA6KHK, NT6X, WA2JQK

BIC-1: Then there were a few who missed BIC status by only one hour. Of this group the most frequently missed hours were the last hours of each session, Hours 12 and 18 (3 Stations each).

- **Texas Stations:** K5CM, N5RZ, K5ECT, WA8ZBT, N5MI
- **Out-of-state Stations:** N8II, W8PI, W6AFA, WA2QAU, N6OKU, W5TM, K0TRL, VE3RGO

BIC-2: And finally, there were a few who missed BIC status by only two hours.

- **Texas Stations:** N5NA, K5OT, WA5JMZ, NE5B, N5WCT, KK5MR
- **Out-of-state Stations:** WB9HFK, N1LN, K9OM, WA5SOG, K1ZZI, K4DR, W9DC, KR4AE, KX4X, F4EUG, K5QQ, NQ9N, WA1SAY

Hourly QSOs by those stations that achieved BIC status is shown on the following tables. Note that the QSO counts in these tables were calculated before any duplicates were removed.

QSO in Every Hour	Session 1 – Saturday												Session 2 - Sunday						Total
AD4EB	177	128	165	211	157	147	195	123	153	160	195	211	250	188	185	160	251	274	3330

Section 7: Log Submission Tips

Here are some tips to make the log submission go easier for the entrant as well as the log processor.

1. **Use a Contest Logging Program** – The work required to submit a log can be simplified considerably if you make use of a contest-oriented logging program such as N1MM+, WinTest, N3FJP, and others that can produce a Cabrillo-formatted log. **[Please do not send ADIF files]** A QSO line in the submitted log should contain the following information and only the following information:
 - Frequency in KHz (e.g. 14050)
 - Mode (CW, PH, or DG)
 - UTC Date (YYYY-MM-DD)
 - UTC Time HHMM please do not include seconds
 - Sent Call (the call you sent)
 - Sent RST (the RST you sent)
 - Sent QTH (standard abbreviation for County/State/Province/DX Prefix that you sent)
 - Received Call (the call the other station sent) – Only the call, do not include /QRP, /P, /CTY
 - Received RST (the signal report the other station sent)
 - Received QTH (standard abbreviation for the QTH sent by the other station)

So, a typical QSO line in the log of NO5W in Louisiana working AD4EB in Franklin county would be

QSO: 14050 CW 2021-09-18 1743 NO5W 599 LA AD4EB 599 FRAN

where the number of spaces between the fields is not important as long as there is at least one. Each QSO should have a separate line. If you work AD4EB and he sends FRAN/DELT for a county line operation you must include two lines in your log, one for FRAN and one for DELT.

2. **Log the Correct Abbreviation** – Be sure to use the correct abbreviation when logging a Texas county, a US state, or a Canadian province. Possible errors here would be logging JACK when working someone in Jackson (JKSN) County, logging COMA when working someone in Comal (COML), logging MONT when working someone in Montgomery (MGMY). There is a JACK County whose abbreviation is JACK, COMA is the abbreviation for Comanche County, COML is the abbreviation for Comal County, MONT is the abbreviation for Montague County, and MGMY the abbreviation for Montgomery County.
3. **Send the Correct Abbreviation** – Be sure to use the correct abbreviation when sending your QTH. Prime examples of errors are sending MONT when you are in Montgomery (MGMY), and sending COMA when you are in Comal (COML), or just plain sending an abbreviation you thought would work. Please review the list of county abbreviations prior to the party.
4. **Review Your Log Prior to Submitting** – Be sure to check that your logging program has correctly recorded your sent information. A prime example here is Texas users of N1MM failing to note that the program logged the sent QTH as TX or TEXAS rather than the county that you actually sent. This usually does not result in loss of points since logs having this problem are returned to sender for

correction. But it creates additional work for the log checkers – not a good thing. Also open your log in a plain text editor like Notepad and verify that line feeds are present.

Use Primary Country Prefix for DX – When you log a DX station be sure to log the correct QTH. DX stations should be logged with the primary prefix of the DX entity. For example, DX is not a valid QTH when working DL3DXX but DL is; similarly, if you work SP9LJD the correct QTH to log is SP.

5. **Interface Your Logging Program to Your Radio** – Logging the correct band and mode on which the QSO took place is automatic if your logging program and your radio are communicating with each other. Otherwise you may change bands and forget to change the band in the logger and not get credit for a new QSO with the same station since it will be considered a dupe.
6. **Include Call and Category in Subject Line** -- When submitting your log be sure to include your call and your category in the subject line of the email. In case it is necessary to review the email submission of NO5XYZ during the log checking process it is a lot easier to find the email submitted by NO5XYZ than it is to find the email of Joe Ham who does not reveal that his call sign happens to be NO5XYZ. Including your category is particularly important for QRP operators and for fixed Texas stations since it is not possible to determine, just from the log entries, whether a station was QRP or LP or HP.
7. **Check Your Call in the Log** -- Finally be sure that your logging program has your call correct. That's right, your call. One operator who has an "oh" in his call (not NO5W!) typed a zero instead so his call in the log file name as well as in the log itself came out KA60YZ and it took a choir of log checkers a good half hour to figure out why that operators log was not showing up in the results – not a good thing.

Section 8: Revision History

Revision 0.0: Initial Release January 15, 2026

Section 10: Appendix –Historical Data on Each Category for 2020-25

This purpose of this appendix is to capture the top three participants in each category over the period 2020-25. Conceivably this data can be used by exuberant future participants to obtain an idea of the kind of score that is required to make the podium in the category being considered. It also serves as a means of recognizing significant achievement over the years.
